

STREAMER S125E

The STREAMER S125 E from IMPACTS is a small, handheld machine, which can be used for multiple vertical and horizontal applications. It works on single phase 230V, A.C. The compact and very robust machine is easy to handle and can be used on small areas, that are difficult to reach. For vertical application it is recommended to use the machine together with a balancer. The STREAMER S 125 E has been specially developed to shotblast small to medium horizontal and vertical areas on concrete, asphalt and steel. Main applications: small rooms, walk ways, pedestrian areas, basements, stairs etc..

In order to reach the optimal blasting capacity, it is recommended to use the Streamers S125 E together with the IMPACTS dust collector series DUSTCOM 2003P.

SPECIFICATION

Model	Streamer 125E
Blasting power	1,35 kW
Travel	Manuell
Power supply	230 V/50 Hz, 16 A
Working Width	125 mm
Blasting capacity	Up to 15 m ² /h on concrete
L x B x H in mm	500 x 170 x 350
Weight	11 kg
