

Dustcollector DUSTCOM 3003GP

The dust collector **DUSTCOM 3003GP** from **IMPACTS** is a very robust and powerful unit.

In order to withstand the hard conditions on every building site, only high quality components and raw materials are used to produce this dust collector.

Three turbines with 1.150 Watt power each are the basic for the extreme powerful performance of the **IMPACTS** dust collector **DUSTCOM 3003GP**. In combination with the 15 m² filter area, with the automatic pulse jet cleaning system and the compact design the **IMPACTS** dust collector **DUSTCOM 3003GP** sets new standards in surface preparation.

FEATURES

- Central locking of the dust bin.
- Big Filtration Area.
- Big, ergonomics optimized dust bin.
- Steel body.
- Changeable dust inlet.
- Optimized proportions, by best power and extremely light weight.
- Electro-pneumatic compressor regulation.

SPECIFICATION

Model	DC3003GP
Motors	3 x 1.150W
Power	3450 W
Power supply	400 V/50 Hz, 16 A
Airflow	600 m ³ /h
Filtering surface certification	3 x cartridges, 15 m ² each M
Dust bin capacity	75 l
Suction inlet	50 mm or 70mm
L x W x H in mm	620 x 650 x 1650
Weight	132 kg
