

GRINDER PM2420

The **Impacts Grinder PM 2420** is equipped with a very robust gearbox technique. It is easily handled on the surface even though its size is fairly big. Because of the frequency converter, the control enables the adjustments for the cutting speed, necessary for the tools. The grinding pressure is extremely variable due to additional weights.

FEATURES

- Very sturdy gear technology.
- With additional pocketweight very variable grind pressure possible
- Tools with quick change technology.
