

SCARIFIER RF125

The **IMPACTS** edge scarifier **RF125** is an addition for edge treatment in the surface preparation industry. Despite the low weight, the machine is very aggressive. Through a simple modification of the handle, the machine can be used on the left and on the right side directly to the wall and into the edge. The height adjustable handle makes it easy usable for the operator. The new developed drum gives a longer life time for the cutting tools. In order to work nearly dust free we recommend using the **DUSTCOM DC2003P** with the scarifier **RF125**.

FEATURES

- Easy Handling.
- Swivel-mounted lever, that for every spatial direction able to work to the edge
- Pluggable, changeable dusthose connection
- Optimized proportions highest performance by smallest weight.

SPECIFICATION
