

STRATO-MOBIL IV

The new heavy-weight class of the hydraulic walk-behind scraper machine.

The powerful motor combined with the new HYDRAULIC-DIRECT-DRIVE system ensures high output at a very low noise level.

FEATURES

- 190 kg well distributed at a maximum speed of 17 m/min
- The STRATO-MOBIL IV is self-propelled (forward and reserve) with adjustable speed control
- Adjustable guide handle in six positions allows ergonomic operation depending on body size or preferred working position
- Weights can be easily removed for transportation, reducing the net weight of the machine
